**1. Permits, Change, Transfer, Renewal, Sale**

Permit Conditions: Emery Deep has one permit condition. The permittee must submit water quality data in an electronic format through the Electronic Data Input web site. This condition is being met.

**2. Signs and Markers**

The mine ID signs are in place at the points of public access and contain the required information.

**4.a Hydrologic Balance: Diversions**

The culvert outlet by the new oil and fuel storage building at the 4th East Portal site is nearing 50 % sediment build up. The outlet and drainage leading away from the outlet needs to be cleaned. The grade of the diversion should be checked to assure that the flow and sediment do not collect in front of the culvert outlet.
